**THE BASICS** + Part I

## Immobel

### OUR POSITIONING

As experts in highly complex real estate projects in major European cities, we create attractive architectural environments that meet clients' expectations and the needs of today and tomorrow. With more than 150 years of experience, we dare to take a position, we have the agility to invest and the drive to improve living and working environments.

### OUR MISSION

Create high-quality, future-proof urban environments with a positive impact on the way people live, work and play.

### OUR VISION

Reinvent living and working environments to help communities live well and sustainably.

## TRUST +

Trust is the cornerstone of our business, and of our company's story that started in 1863. Every day, we put our dedication and expertise to work for clients, investors, citizens and partners. Every day, we aim to be worthy of their trust.

## OUR VALUES

## PASSION +

We love what we do! It is the driving force for our team of 200 dedicated people, and it fuels our constant desire for improvement and our solutions-oriented approach. It also creates a lively work atmosphere where all colleagues can give the best of themselves and contribute real added value to our projects.

## + AGILITY

We are used to working with many different stakeholders, as well as improvising in ever-changing circumstances. Without ever compromising on quality or the key aspects of responsible development, we design real estate projects that meet the most exacting standards of construction and urban renewal.

## OUR LOGO

Our brand is built on solid foundations and a proud history that is perfectly embodied in our logo. The logo has taken on a more modern look over time, but maintained its fundamentals: a graphic element that represents the company's ambition, entrepreneurial spirit and ability to make things happen.

It is a dynamic symbol that expresses, in its infinite form, our positive impact on our environment.

The typeface expresses status, harmony and modernity.

Proportionally, the name takes up a large part of the logo.

Our experience, conveyed by the founding date, is an integral part of the logo.

Together, these components articulate the ambition of a brand with a long history that is firmly rooted in the present and always ready to meet new challenges.

## Our fundamentals

## OUR GRAPHIC TERRITORY

Immobel's graphic territory is made up of proprietary visuals, a colour palette and typefaces that will be described in detail in the following pages.

We use a specific graphic element, known as a booster, to highlight our personality and express our difference in the marketplace. This booster makes our communication unique.

## LOGO DESIGN

The design is a balanced equation of the different components that represent who we are: a symbol that expresses our vision of the business and our vibrant outlook, our name and our founding date.

**The logo cannot be modified.**

### Main logo

### Alternative logo

### Symbol alone (specific uses)

## LOGO VERSIONS

The main logo, centred, is the preferred version for the majority of applications.

A horizontal version may be used as an **alternative** when the centred version is not feasible, because the available height is insufficient or the format is very elongated (for example, a banner or beach flag).

The symbol may be used alone in exceptional cases only, when technical constraints rule out use of the main logo or alternative version.

Examples include social media or PowerPoint templates, due to lack of space and lack of clarity for the founding date.

## PROTECTION AREA

The logo should always be surrounded by a clear space, known as a protection area, the size of the "I" in Immobel.

The space between the symbol, the name and the founding date corresponds to half the "I" in Immobel.

### Minimum size

20 mm wide

25 mm wide

## Our logo

## THE LOGO AND ITS APPLICATIONS

The logo is printed in its main colour when placed on a very light colour background or image.

A reverse white logo is used on a dark background or image. Be careful with contrasts.

**No other uses are allowed.**

**Black version**

## UNACCEPTABLE LOGO USAGE

The logo's proportions, colours and composition must never be modified. The logo must remain visible in all circumstances.

## THE TAGLINE, A STATEMENT OF VALUES

The **“For cities, for people”** tagline expresses Immobel’s ability to create value with innovative projects and to share the values that inform its purpose, including respect for the environment and an inclusive vision of city living.

Combined with the booster, it reflects the added value provided to cities and their residents.

FOR CITIES  
FOR PEOPLE

## THE BOOSTER, + OUR DISTINGUISHING GRAPHIC ELEMENT

As a developer of sustainable, user-centric properties, Immoebel has a positive impact on cities. The booster is a distinctive marker that makes our added value tangible.

This distinguishing graphic element introduces the tagline and provides numerous possibilities for visual composition. It expresses a powerful benefit for our stakeholders.

**FOR CITIES  
FOR PEOPLE**

Sed ut perspiciatis unde omnis iste natus error sit voluptatem accusantium doloremque laudantium, totam rem aperiam, eaque ipsa quae ab illo inventore veritatis et quasi architecto.

## Booster

## THE BOOSTER, OUR DISTINGUISHING GRAPHIC ELEMENT

The booster links the tagline with a tangible benefit. It is a focal point that ties our projects to customer needs.

### Usage guidelines:

#### Booster: +

In most cases, it introduces the tagline. It can also be used to introduce visuals or to position the main body copy (for example, in an advertisement).

#### Closed and open booster:

The open booster indicates direct speech. On a visual, it highlights an important element or draws the eye to a key detail.

The closed booster frames a visual element or section of text to provide emphasis and punctuate the layout (for example, in a brochure).

## ICONS

The Immobel icons have been designed on the basis of our visual identity standards.

They may be used to illustrate our businesses, highlight our expertise or describe trends.

A library of some 30 icons is available in the Brand Centre.

### Graphic recommendations for designing new icons:

- Icons always contain two colours that play off each other in the composition. Sand sets the stage and blue underlines the key information.
- All icons are line drawings.
- One or more blue points may be used. They unify the icons by bringing Immobel's logo symbol to mind.

## USING THE MESSAGE PLATFORM TO PRESENT CONTENT

## STYLE GUIDE

Helpful writing guidelines for talking about Immobel.

### Not allowed

~~IMMOBEL~~

~~Passive mood.~~

Example: "It was decided that..."

~~Abstract and  
distant copy~~

### Best practices

#### Immobel

Generally in lower case with a capital "I".  
Must be in upper case if used in a title in all caps.

#### Active mood.

Example: "Immobel decided that..."

We avoid abstract and distant copy and show **it's about real life**, that people are involved on a daily basis and that **there is real impact**.

The tone of voice is **straight and to the point**, reflecting professionalism, transparency and confidence. A facts-oriented tone focused on results will refer to Immobel's approach, determination and dedication to achieve its ambitions. Technical/ niche vocabulary may be used for specific audiences (experts) when needed.
